OTHER BUSINESS:**FLOODPLAIN MANAGEMENT AMENDMENTS**

Presentation Purpose: County staff will explain the proposed Floodplain Management Amendments and take comments from the Council and the public.

Project Overview: Sacramento County is processing General Plan, Zoning Code and Floodplain Management Ordinance Amendments that are required to comply with state law on Floodplain Management. The primary focus of the amendments is to establish an “Urban Level of Protection” (200-year) in flood hazard zones that meet certain criteria, including being in an urban or urbanizing area . Non-urban areas will remain subject to any existing FEMA regulations. Other proposed amendments address levee setbacks, agency coordination, updated map data, emergency response and floodway management and design. For detailed information including a map of areas affected by ULOP, project summary, process overview, listings of scheduled meetings and public review documents, visit the Planning and Environmental Review Division’s [Floodplain Management Amendments page](#).

**Note: Courtesy notices are not sent for presentations on amendments that apply countywide, such as this one. We encourage you to distribute this agenda to anyone who might have an interest in this project. The Floodplain Management Amendments page lists additional opportunities for public comment.*
