

INVITATION TO SUBMIT APPLICATION FOR DESIGN REVIEW ADVISORY COMMITTEE

Sacramento County is accepting applications for one (1) member on the Design Review Advisory Committee (DRAC), which is a function serving the Office of Planning and Environmental Review.

The DRAC is authorized to provide design review of discretionary projects and technical guidance for the Sacramento County Design Review Program. The Design Review Program is a tool for supporting high quality, pedestrian friendly, "place-making" projects on a county-wide basis and is intended to be holistic in addressing how site design, building architecture, landscaping, and signage all fit together into well designed, coordinated projects. The DRAC is made up of three members with professional backgrounds in Urban Design and is appointed by the Planning Director.

DRAC meetings are scheduled on the 2nd and 4th Thursday of each month from 11:00 a.m. to 1:00 p.m., but occur only as the workload demands. The DRAC members are compensated \$70 per attended meeting.

Following is the Board adopted ordinance text establishing the DRAC.

Design Review Advisory Committee. For discretionary projects, the Design Review Advisory Committee (DRAC) shall conduct design review and make findings and recommendations to the approving authority regarding compliance with the County-wide Design Guidelines. The DRAC shall not have any final authority over projects and shall serve in an advisory and technical guidance capacity to the approving authority. The Planning Director shall adopt administrative procedures for conduct of meetings of the DRAC and the referral and review process. The DRAC shall consist of the following three members: three individuals with a professional background in architecture, landscape architecture, or urban design, appointed by the Planning Director. At least one of the design professionals shall have significant and demonstrated experience in the design of retail commercial development. Each member of the DRAC shall be appointed to serve a three-year term.

Applications can be found on the Department's DRAC webpage:
